

ASBESTOS - Mineralogy and Crystal Chemistry
Reading and Reference List

February 2 - Asbestos

Read Scientific American Article:

Mossman, Brooke T., and James E. Alleman, 1997. Asbestos Revisited. *Scientific American* July: pp. 70-75.

READ: Veblen, D. and Wylie, Ann, G., 1993. Mineralogy of amphiboles and 1:1 layer silicates. Chapter 3, *RiM*, v. 28, p. 61-135.

Review crystal chemical discussions on amphiboles and layer silicates,
e.g. Klein, C. and Hurlbut, Cornelius S., Jr., 1993. **Manual of Mineralogy**. John Wiley and Sons, Inc., New York, 21st Ed., 682 p.

Wicks, F.J., and O'Hanley, D.S., 1988. Serpentine minerals, *RiM* v. 19, Chapter 5, 91-167.

Zoltai, T., 1981. Amphibole asbestos mineralogy, *RiM* v. 9A, Chapter 5 p. 237-278.

Additional References:

Ross, M., Kuntze, R.A., and Clifton, R.A., 1984. A definition of asbestos. *Amer. Soc. Testing and Materials*, Special Technical Publication 834. p. 139-147.

O'Hanley, D.S., 1998. Serpentine.
